Overview

Vengeance LPX memory is designed for high-performance overclocking. The heatspreader is made of pure aluminum for faster heat dissipation, and the custom performance PCB helps manage heat and provides superior overclocking headroom. Each IC is individually screened for performance potential.

The DDR4 form factor is optimized for the latest Intel DDR4 motherboards and offers higher frequencies, greater bandwidth, and lower power consumption than DDR3 modules. Vengeance LPX DDR4 modules are compatibility-tested across Intel DDR4 motherboards for reliably fast performance. They're available in multiple colors to match your motherboard, your components, or just your style.

VENGEANCE LPX Series

Features

| Feature | Benefit |
|--|---|
| Designed for high-performance overclocking | Each VENGEANCE LPX module is built with a pure aluminum heatspreader for faster heat dissipation and cooler operation; and the custom performance PCB helps manage heat and provides superior overclocking headroom. Each IC is individually screened for performance potential. |
| Designed for great looks | Available in multiple colors to match your motherboard, your components, or just your style |
| Performance and Compatibility | VENGEANCE LPX is optimized and compatibility tested for the latest Intel DDR4 motherboards and offers higher frequencies, greater bandwidth, and lower power consumption. |
| Low-profile heatspreader design | The VENGEANCE LPX module height is carefully designed to fit smaller spaces. |

Tech Specs

Density: 16GB (2x8GB)Speed: 3200MHz

• Tested Latency: 16-20-20-38

Voltage: 1.35VFormat: DIMMPin Out: 288 Pin

Heatspreader: Anodized Aluminum
 Compatibility: Recommended for DDR4 systems - Intel 100, 200, 300, or X299
 Series with Core X Series i7-76xx or i5-76xx (codename: Kabylake-X) (full list
