Overview
25 Word Product Description

The CORSAIR 2000D AIRFLOW is a Mini-ITX small-form-factor case with phenomenal cooling thanks to steel mesh front, side, and rear panels that deliver plentiful ventilation to your system.

Overview
50 Word Product Description

The CORSAIR 2000D AIRFLOW is a Mini-ITX small-form-factor case with phenomenal cooling thanks to steel mesh front, side, and rear panels that deliver plentiful ventilation to your system. An optimized interior can fit up to 8x 120mm case fans or 2x 140mm fans for outstanding airflow in minimal space.

Overview
100 Word Product Description

The CORSAIR 2000D AIRFLOW is a Mini-ITX small-form-factor case with phenomenal cooling thanks to steel mesh front, side, and rear panels that deliver plentiful ventilation to your system. An optimized interior can fit up to 8x 120mm case fans or 2x 140mm fans for outstanding airflow in minimal space. Despite its compact frame, the 2000D AIRFLOW can comfortably support a three-slot graphics card up to 365mm long, for a high-end, high-performance system, with room for up to three 2.5in storage drives. Complete with a modern front I/O panel including a USB Type-C port, the 2000D AIRFLOW case is a small wonder.

Features and Benefits

- House today's highest-end PC hardware in a space-saving design ideal for small-form-factor builds, with abundant airflow thanks to removable mesh panels and premium CORSAIR build quality, in a case that's small in size and big on cooling performance.
- Mini-ITX form-factor with just 24.4 liters of volume takes up a tiny amount of space on or under your desktop, with dimensions of 271mm x 200mm x 458mm.
- Removable steel mesh front, side, and rear panels deliver plentiful ventilation from nearly all sides of your system for maximum cooling potential.
- Comfortably install a three-slot graphics card up to 365mm in length, for a high-end, high-performance system taking up minimal space.
- A cooling-optimized interior fits up to an incredible 9x 120mm or 2x 140mm fans, along with multiple radiators including a 360mm on the side and 240mm in the back (dependent on GPU size).
- Put your connections within easy reach, including a USB 3.1 Type-C port, 2x USB 3.0 Type-A ports, and a combination audio/microphone jack.
- Fits up to 3x SSDs for expansive storage capacity.
- Easily connect your power cable to your PSU without having to lift the chassis.

Style 2

- **A Fitting Choice** - House today's highest-end PC hardware in a space-saving design ideal for small-form-factor builds, with abundant airflow thanks to removable mesh panels and premium CORSAIR build quality, in a case that's small in size and big on cooling performance.
- **Compact Frame** - Mini-ITX form-factor with just 24.4 liters of volume takes up a tiny amount of space on or under your desktop, with dimensions of 271mm x 200mm x 458mm.
- **High-Airflow Removable Panels** - Removable steel mesh front, side, and rear panels deliver plentiful ventilation from nearly all sides of your system for maximum cooling potential.
- **Triple-Slot GPU Support** - Comfortably install a three-slot graphics card up to 365mm in length, for a high-end, high-performance system taking up minimal space.
- **Extreme ITX Cooling** - A cooling-optimized interior fits up to an incredible 9x 120mm or 2x 140mm fans, along with multiple radiators including a 360mm on the side and 240mm in the back (dependent on GPU size).
- **Modern Front Panel I/O** - Put your connections within easy reach, including a USB 3.1 Type-C port, 2x USB 3.0 Type-A ports, and a combination audio/microphone jack.
- **All the Storage You Need** - Fits up to 3x SSDs for expansive storage capacity.
- **Included Low-Profile AC Power Cable** - Easily connect your power cable to your PSU without having to lift the chassis.
