

# HyperX Pulsefire Haste 2 - Gaming Mouse (White)

## GAME AT THE SPEED OF ULTRA-LIGHT.

The HyperX Pulsefire Haste 2 is built for gamers who maximize every millisecond. Our designers optimized the original Pulsefire Haste to deliver a solid-shell sequel that performs brilliantly but weighs just 53g. Then our team built a high-performance HyperX suite of components, highlighted by the precision HyperX 26K Sensor which has a native DPI of up to 26,000 with a tracking speed of up to 650 IPS. The Pulsefire Haste 2 features custom HyperX Switches that provide tactile, audible feedback on each satisfying click, and are rated for a lifespan of up to 100 million clicks. Get better responsiveness and accuracy with the Pulsefire Haste 2's 8000Hz<sup>2</sup> polling rate. You'll also enjoy superior physical control of your mouse with the included grip tape, a super-flexible paracord cable, and virgin PTFE skates. Get the most out of every mouse movement with HyperX NGENUITY Software and program create macros for the 6 programmable buttons, customize your DPI settings, and personalize your RGB lighting.

## Key features

### Easier mouse movement for easier wins

Game at the speed of ultra-light with the Pulsefire Haste 2. Featuring a solid shell, but still weighing in at just 53g<sup>1</sup>, it's designed to help you move quicker, game better, and feel less fatigue.

### 8000Hz<sup>2</sup> polling rate for maximum performance

The HyperX Pulsefire Haste 2 reports in up to 8 times per millisecond. That's a signal every .125 MILLISECONDS. Ensure you never lose a one-on-one because of mouse input lag again.

### Durable, Satisfying HyperX Switches

Rated for up to 100 million clicks, HyperX mouse switches provide solid tactile and audible feedback on every satisfying click.

### Included grip tape for secure, customizable grip.

4 pieces of custom no-slip HyperX Grips are provided for left and right mouse buttons and the left and right sides of the mouse.

### Incredibly precise HyperX 26K Sensor

Say hello to our HyperX 26K Sensor. It's capable of up to 26,000 DPI natively and can track at speeds up to 650 IPS. With that level of precision, making clutch plays has never been easier.

### Reduce cable resistance with the HyperFlex 2 Cable

HyperX built our super-flexible HyperFlex 2 Cable out of paracord material to facilitate smooth, free-flowing mouse movement and prevent cable snags in clutch situations.

### Virgin PTFE skates for smooth, effortless gliding

Mouse movement is a breeze when you combine the Pulsefire Haste 2's ultra-light weight with its low-friction, 100% virgin-grade PTFE skates.

### Customizable with HyperX NGENUITY Software

Get the most out of every mouse movement. HyperX NGENUITY Software can set macros and binds for the 6 programmable buttons, customize DPI levels, and set RGB lighting.

<b>Product Names</b>	<b>Product name:</b> HyperX Pulsefire Haste 2 - Gaming Mouse (White)
<b>Product Numbers</b>	<b>Product number:</b> 6N0A8AA
<b>Warranty</b>	<b>Manufacturer Warranty:</b> 2 year
